

Workshop for dancers with non-normatisable physicalities

FORWARD DANCE COMPANY (FDC) is the dance company of LOFFT - DAS THEATER, an independent production venue in Leipzig. Gustavo Fijalkow is the Artistic Project Director and the dancers work with guest choreographers.

FDC would like to meet dancers with non-normatisable physicalities. Therefore, we'd like to invite you for a four-days workshop with the company November 17th - 20th 2025 if:

- The norms of traditional dance training are not applicable to your body
- You have already worked as a professional dancer or have evidence of working for a longer period in a semi-professional dance group

Within the diversity of accessibility needs and realities, our focus is set on exploring different physicalities and their movements.
